February 10, 2022

Dear Veterinary Colleagues,

The International Council for Veterinary Assessment is seeking nominations for three At-Large positions on the ICVA Board of Directors. Two of these positions are unopposed, and the third position does have an incumbent eligible for reappointment, but we encourage interested parties to apply.

The ICVA Board of Directors consists of 13 board members- eight (8) Designated Directors (including a Public Member), and five (5) At-Large positions.

The At-Large directors will be nominated by a veterinary organization, an individual, or be self-nominated. Directors are appointed for three-year terms and may serve a maximum of three terms. All directors, except the public director and up to two (2) of the At-Large directors, shall possess the Doctor of Veterinary Medicine degree, or equivalent veterinary degree.

The ICVA holds two regular business meetings each year, typically in June and January, at locations selected by the ICVA or the ICVA Chair. Meetings are typically 2 days in length but may vary depending on the agenda.

ICVA directors receive no compensation for their service as directors. The ICVA covers all reasonable travel expenses for directors to attend ICVA meetings and other official activities.

Please review the attached document outlining ICVA Board Member Criteria. Ideally, all persons appointed to the ICVA should have some experience and interest in veterinary licensure, veterinary practice, veterinary medical education, testing, and/or nonprofit governance.

Nominations, including a completed nomination form and resume/CV should be submitted to jblasewitz@icva.net by April 15, 2022. We will follow up by directly contacting nominees.

Thank you for your consideration and assistance.

Sincerely,

Heather CF Case, DVM, MPH, DACVPM, CAE
Chief Executive Officer
